They got some practical templates for paperwork, learned about the importance of having insurance for our parents on the committee, and how we should have a foundation committee separate from parent council. 7.2 School Trustee's report: Parent Council May 2019

During April I had the opportunity to attend the FNMI Gathering in Edmonton and learned more about the Metis and Inuit Cultures, particularly how they were affected by the Residential Schools.

We had our second Board meeting on April 18th and set a number of meeting dates including budget deliberations, PR Committee, Boundary deliberations and capital planning.

I attended the Outreach School Parent Council and the Board/Parent Council Chairs meeting in Lacombe.

The Zone 4 meeting was held in Rocky Mountain House and after that we had a budget meeting in Ponoka to discuss the obligations we have to our teaching staff prior to the end of May. On the way home I stopped in at Crestomere and caught the last part of their final meeting of the year.

On April 30 the Mission, Vision and Values "committee" met for the third time and it was very interesting to learn of the Thought Exchange results regarding ideas for the future of education in Wolf Creek.

We had a Board meeting on the second of May and that meeting included learning the results of the Capital Planning assessment that was done for the division.

We set more dates for meetings, discussed the Edwin Parr banquet, the Canadian School Boards survey, differentiated calendar requests and reviewed our Board Commitments.

I attended the TAG (Teachers Advisory Group) meeting on May 7th, the Bluffton Farewell on May 9th and on the 13th was in Ponoka for more committee meetings.

9. Adjournment: Next meeting is September 10, 2019.
